

ITW GSE

FLAT DUCT REEL CART AND YOKE ASSEMBLY

Flat Duct Reel Cart

ITW GSE has the perfect solution for storing PC Air ducts. The Flat Duct Reel Cart, JB680 provides convenient airside storage and reduces obstructions on the ramp for ground personnel and ramp vehicles. It reduces wear and tear to your PC Air hose and the PC Air connectors.

Features of the Flat Duct Reel Cart:

- Equipped with toe brakes
- Powder coated in safety yellow color
- Storage capacity of up to 80 feet of 12" or 14" diameter duct
- Attaches to passenger loading bridge or it can function as a stand-alone unit
- Reduces obstructions on the ramp

Let your Area Sales Manager help you configure the best option for your needs.

Yoke Assembly

ITW GSE offers a Yoke Assembly to easily store PC Air Flat Duct Reel carts to further reduce obstructions on the ramp. The ITWGSEYokeAssembly attaches to the passenger loading bridge to secure the Flat Duct Reel Cart.

The Yoke Assembly is made of rugged steel with heavy duty casters and is finished in safety yellow for use in all weather conditions.

Features of ITW GSE Yoke Assembly:

- Designed to hold 1 to 3 PC Air Flat Duct Reel Carts
- Can be used with any aircraft
- Attaches Flat Duct Reel Carts to the passenger boarding bridge for safe storage.
- Protects PC Air hose and connectors
- Side mount option available

The ITW GSE Yoke Assembly is available in the following configurations:
